

# MimioTeach Portable Interactive Whiteboard

Turns any whiteboard into an interactive whiteboard with your classroom computer and a projector—you get whole-class learning in under a minute!

The MimioTeach™ interactive whiteboard includes all the hardware and software you need to launch your interactive classroom, so you get more for your budget dollars.

The small, portable MimioTeach bar attaches magnetically to a typical dry erase board. When your teachers plug the MimioHub™ wireless receiver into their computer and connect the computer to a projector, you can enjoy a projected display area up to 5 feet by 8 feet. Your lessons come to life, quickly and easily.

The MimioTeach interactive whiteboard comes with award-winning MimioStudio™ classroom software—the power behind all our products—so adding on additional Boxlight tools is a breeze.

- A complete interactive whiteboard system that uses the dry erase boards and projectors you already have.
- Straightforward interface lets you get up and running in minutes.
- Full-featured MimioStudio software helps you create engaging interactive lessons.
- Lightweight and portable, so you can move it between classrooms and store it safely.

“It comes out of the box and just works. It’s just a really versatile tool, and it captures the kids’ attention.”

## MimioStudio software—so easy to use and engaging, your teachers will use it every day.

The MimioTeach interactive whiteboard includes the dynamic MimioStudio classroom software. It connects the Boxlight products, so using other tools—from the document camera to the pen tablet—is quick and easy. MimioStudio software allows educators to create interactive lessons and collaborative activities, and perform real-time formative assessment.

**Take learning even further with our MimioMobile™ app, which brings group learning and collaboration to almost any device.**
