

MODEL SPECS

INTERFACES

*Supported models: XJ-F200N/XJ-F200WN/XJ-F210WN

MAIN FUNCTIONS

- Built-in Speaker <10w>
- Presentation Timer
- USB Memory Compatible*
- Wireless Connection Compatible*
- C-Assist
- Intelligent Light Control
- Wide-angle Zoom Lens <1.5x>
- Automatic Vertical Keystone Correction
- Ceiling-mounted Projection Compatible
- Anti-theft Lock
- HDMI Terminal
- Wired LAN Terminal*
- USB Display*

ACCESSORIES INCLUDED WITH PRODUCT:

- Main Cable
- IR Remote Control (YT-151)
- Quick Guide
- Warranty Card
- Carry Case (Optional YW-40)
- Wireless Dongle (Optional YW-40)

- 1 When "Bright" is selected for "Light Control Off mode" or "Eco Off mode".
 - 2 Plug-in power type microphone are not supported.
 - 3 Connectable devices: CASIO digital camera, USB memory (Commercially available. Compatibility with all USB memory devices not guaranteed).
 - 4 For firmware update.
 - 5 With connection of wireless LAN adaptor to USB-A (Host) port.
- User's manual and Network manual available for downloading on CASIO website.

CASIO® PROJECTORS

FOSTERING FUTURE BUSINESS RELATIONS. WITH ADVANCED TECHNOLOGY.

ADVANCED Series
XJ-F10X XJ-F20XN XJ-F100W XJ-F200WN XJ-F210WN

*Actual worldwide sales (2010 ~ 2015) Solid State Illumination Light Source projectors rated at or 2,500 Lumens or higher. Source: Fluoresources Consulting Ltd.

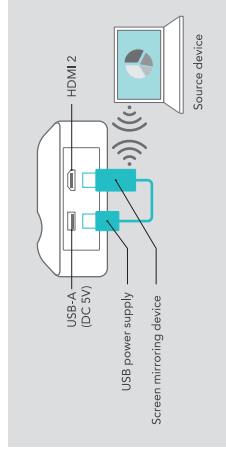

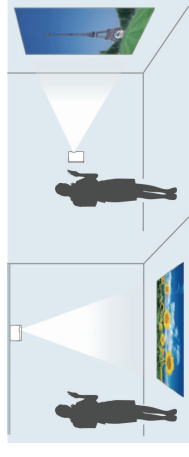

ADVANCED Series

High-end performance for your every need.

1.5X ZOOM LENS & 360° INSTALLATION

The 1.5x zoom lens allows for flexible installation by maintaining clear screen resolution regardless of the projector-screen distance. As such, the projector can be installed on any angle, including a vertical mount for portraits and floor or ceiling mount for perpendicular projections.

The DC5V/2A USB port allows you to mirror your device onto the big screen, without the need for an external power source. This gives you a seamless and unimpeded presentation experience.

SCREEN MIRRORING MADE POSSIBLE

PRESENTATION WITHOUT CABLES*

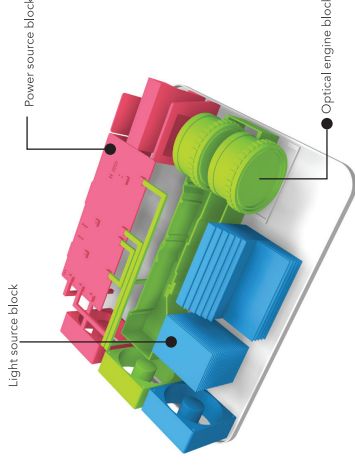

With wireless connection available, you can project the information prepared on your PC wirelessly and play any music attached to it directly from the projector. The Advanced Series is also equipped with a flash drive port to allow easy connection without having to connect to a PC.

*Supported models: XJ-F20XN/F200WN/F210WN
Wireless LAN connection requires a separate adapter.

DUST RESISTANCE STRUCTURE

Apart from looking stylish, the Advanced Series projector cabinet has a unique structure made up of three separate blocks and a tightly shielded primary light source. This structure suppresses dust intrusion to ensure optimum performance even in dusty environments.

VERTICAL KEYSTONE CORRECTION

Trapezoidal distortion caused by tilting of projector up or down are corrected automatically within $\pm 30^\circ$. Alternatively, it can be adjusted manually in 7 easy steps.

Before correction

After correction

INTELLIGENT LIGHT CONTROL

The light sensors on the Advanced models detect ambient light and adjust the projection brightness automatically within 7 different brightness levels.

Bright lighting Low lighting

Automatic projection luminance adjustment contributing to power saving
