

PRO-AV SOLUTION CORPORATE MEETING AND SEMINAR

Corporate Meetings/Conferences are crucial part of business activities. Engaging broadcast-style video communication to properly stream video through corporate network infrastructure aim at discussing feedback and receiving feedback on the spot, thus, encourage participation and involvement, turn out to be more productive and contribute to organisational success.

SE-650 allows professional cameras PTC-140 to convey feelings and expressions of participants, manage slides & video sharing and allow contents to be easily distributed to a projectors and TVs. NVS-33 complete your meetings & conferences by records the session and to stream to private corporate channel.

Conventionally, such application can be deployed for National Sales & Marketing Meeting, Training & Workforce Development, Soft Launch and many more.
